

Washing an Australian Shepherd

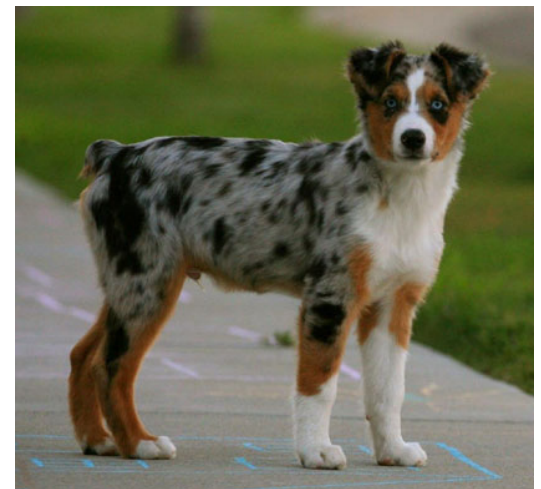

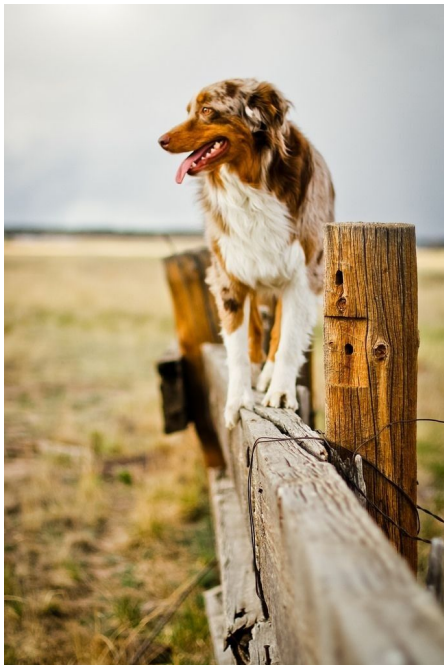

A site dedicated to showing the most careful and efficient way to wash an Australian Shepherd dog.

Site Description & Goals

- Description: This is a website dedicated to showing you the best way to wash your Australian shepherd or other similar coated dog. This will go over the necessary steps needed in order to complete this task, provide tips and hints on how best to accomplish this, as well as, showing you a gallery of freshly cleaned an energetic Australian Shepherds.
- Goals: With this site I wanted to do away with the whimsical and colorful designs that are generally seen on dog centered or other pet centered websites. I wanted this to be sleek, black, and straight forward.

Inspiration

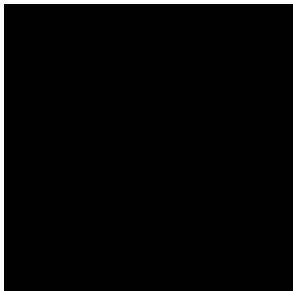

The main inspiration for this site is my own experiences with my own Australian Shepherd and the difficulties I face when bathing her or caring for her in other ways. All in all this is an amazing breed and anyone who owns one or who is caring for one should know how to properly do so.

Colors

- Red-#FF0000

- Black-#000000
